If both contestants remain inactive after five (5) seconds, the center referee will signal the "Fight" command. A "Gam-jeom" will be declared: On both contestants if there is no activity from them 5 seconds after the command was given; or on the contestant who moved backwards from the original position 5 seconds after the command was given.
- b) Turning the back to avoid the opponent's attack should be punished as it expresses the lack of a spirit of fair play and may cause serious injury.
- c) Retreating from the technical engagement only to avoid the opponent's attack and to run out the clock, "Gam-jeom" shall be given to the passive contestant.
- d) 'Pretending injury' means exaggerating injury or indicating pain in a body part not subjected to a blow for the purpose of demonstrating the opponent's actions as a violation, and also exaggerating pain for the purpose of elapsing the contest time. In this case, the referee shall give a "Gam-jeom" penalty. Referee may request IVR for clarification before declaration of "Gam-jeom" for pretending injury.
- e) "Gam-jeom" shall also be given to the athlete who asks the referee to stop the contest in order to adjust the position/fit of protective equipment.
- f) In the case an athlete adjusts his/her equipment taking focus from the contest, the referee shall immediately stop the contest by declaring "Kalyeo" and give a penalty ("Gam-jeom") to the athlete who is adjusting his/her equipment.

Lifting the leg to block or kicking the opponent's leg to impede the opponent's execution of a permitted foot technique, or lifting a leg or kicking in the air for more than three (3) seconds to impede the opponent's potential attacking movements, or the kick was aiming below the waist. Lifting the leg for more than three (3) seconds, without execution of any permitted foot technique or continuous motion of permitted techniques shall be penalized by "Gam-jeom".

- a) Execution of technique after Kal-yeo that results in actual contact to the opponent.
- b) If the execution of the permitted technique started before the Kal-yeo, the attack shall not be penalized.
- c) In Instant Video Replay (IVR) review, the timing of Kal-yeo shall be defined as the moment that the referee's Kal-yeo hand signal was completed (with a fully extended arm); and the start the foot technique shall be defined as the moment that the foot executing the technique is fully off the floor. In the case of a fist technique the technique should be considered started when the fist starts its motion towards the opponent.
- d) If a technique after Kal-yeo did not land on the opponent's body but appeared deliberate and malicious the referee may penalized the behavior with a "Gam-jeom".

15.4.8 Dangerous play

Dangerous play includes hitting the opponent's head with the hand (fist), arm, elbow or any part of the body including the permitted techniques listed in Article 12.1. Unintentional/Accidental Dangerous play shall be penalized by "Gam-jeom". Repeated unintentional/accidental dangerous play, three (3) times, shall lead to the athlete being disqualified (DSQ).

Dangerous play due to unsafe play from the opponent cannot be penalized by this article. In the case of a hit to the head the Referee shall immediately suspend the contest in accordance with article 21.

In the case an athlete intentionally commits Dangerous play resulting in a hit to the head the referee shall ask for a video replay of the situation and then decide if the situation was intentional or unintentional/accidental.

Unintentional/Accidental Dangerous play is defined as:

- Hitting the hogu, shoulder etc. and technique slides up to hit the head due to the motion of the opponent.

Intentional Dangerous play is defined as:

- Clearly shown that athlete is aiming for and hitting the head with their technique
- Turning and spinning techniques hitting the head directly

15.4.9 Unsafe play

Unsafe play occurs when an athlete intentionally or unintentionally takes a stance, avoids the opponent's techniques or plays with a game tactic where the head becomes a target and increases

the risk to be hit to the head. Blocking a technique in a way so it hits the athlete's head is also considered unsafe play. When there is a hit to the head the Referee shall ask for IVR to determine if the situation concerns unsafe or dangerous play, if he or she is uncertain.

15.4.10 Butting or attacking with the knee

This article relates to an intentional butting or attacking with the knee when in close proximity to the opponent. However, contact with the knee that occurs in the following situations cannot be punished by this article.

- When the opponent rushes in abruptly at the moment a kick is being executed
- Inadvertently, or as the result of a discrepancy in distance in attacking

15.4.11 Attacking the fallen opponent

This action is extremely dangerous due to the high probability of injury to the opponent. The danger arises from the following:

- The fallen opponent is in an immediate defenseless state
- The impact of any technique which strikes a fallen contestant will be greater due to the contestant's position.

These types of aggressive actions toward a fallen opponent are not in accordance with the spirit of Taekwondo and as such are not appropriate to Taekwondo competition.

(Interpretation #16.3)

The winner will be the athlete that scores the first point or who's opponent receives two "Gam-jeom". A single "Gam-jeom" will not be counted as a point for the opponent during the Golden round. The PSS will determine who scored first in the case of athletes delivering valid scoring techniques at the same time.

(Interpretation #16.4.1)

In the case there is a hit through prohibited act to the PSS below the hit level. Center Referee must give a penalty and invalidate the hit for the purpose of superiority.

Article 18

Knock down

A Knock Down shall be declared when a permitted technique is delivered to a permitted area and;

- 18.1 When any part of the body other than the sole of the foot touches the floor due to the force of the opponent's permitted technique to permitted areas;
- 18.2 When a contestant is staggered and shows no intention or ability to continue as a result of the opponent's permitted techniques to permitted areas;
- 18.3 When the referee decides that the contest cannot continue as the result of being struck by a permitted technique to a permitted area;

(Interpretation #18)

A knock down:

This is the situation in which a contestant is knocked to the floor or is staggered, bleeding or unable to respond adequately to the requirements of the contest due to a blow. Even in the absence of these indications, the referee may interpret a knock down, the situation where, as the result of contact, it would be dangerous to continue or when there is a question about safety of a contestant.

Article 19

Procedure in the case of a knock down

- 19.1 When an athlete is Knocked Down as the result of the opponent's permitted technique delivered to a permitted area, the referee shall take the following measures;
- 19.1.1 The referee shall keep the opponent away from downed athlete by declaration of "Kal-yeo" (break);
- 19.1.2 The referee shall first check the status of the downed athlete and count aloud from "Ha-nah" (one) up to "Yeol" (ten) at one (1) second intervals towards the downed athlete, making hand signals indicating the passage of time;
- 19.1.3 In the case the downed athlete stands up during the referee's count and desires to continue the contest, the referee shall continue the count up to "Yeo-dul" (eight) for recovery of the athlete. The referee shall then determine if the athlete is recovered and, if so, continue the contest by declaration of "Kye-sok" (continue);
- 19.1.4 When an athlete who has been knocked down cannot demonstrate the will to resume the contest by the count of "Yeo-dul" (eight), the referee shall announce the opponent the winner by RSC (Referee Stops Contest);
- 19.1.5 The count shall be continued even after the end of the round or the expiration of the contest time;
- 19.1.6 In the case both athletes are knocked down, the referee shall continue counting as long as one of the athletes has not sufficiently recovered;
- 19.1.7 In the case both athletes are knocked down and both athletes fail to recover by the count of "Yeol" (ten), the winner shall be decided by the contest score before the occurrence of Knock Down;
- 19.1.8 When it is determined by the referee that an athlete is unable to continue the referee may decide the winner either without counting or during the counting.
- 19.2 Any athlete who could not continue the contest as a result of a serious injury to any part of the body cannot enter competition within thirty (30) days without approval of the WT Medical Committee after submission of a statement from the physician designated by the pertinent Member National Association.
- 19.2.1 Except for medical emergency, any athlete with any serious injury must be evaluated by venue medical doctor and confirmed by Medical Chairman (MC) at medical room immediately after the contest.
- 19.2.2 Any athlete who had knock-out due to head injury must be checked by Medical Doctor at medical room as explained in the WT Medical Rules. A venue medical

doctor must perform SCAT5 on the injured contestant for diagnosis of concussion in the case of head injury within thirty (30) minutes after the head injury.

19.2.3 Any athlete who has been diagnosed with a concussion based on evaluation with SCAT5 will receive a forty-five (45) day suspension

19.2.4 Any athlete that have had two (2) concussions within a 90-day period will automatically get a 90-day suspension. Any athlete that suffer three (3) concussions within twelve (12) months (one year) will be given a twelve (12) month (one year) suspension.

(Interpretation #19.1.1)

Keep the opponent away:

In this situation the standing opponent shall return to the respective athlete's mark, however, if the downed athlete is on or near the opponent's athlete's mark, the opponent shall wait at the boundary line in front of his/her coach's chair.

The referee must be constantly prepared for the sudden occurrence of a knock down or situation where the athlete is staggered, which is usually characterized by a powerful blow accompanied by impact.

(Interpretation #19.1.3)

In case the downed athlete stands up during the referee's count and desires to continue the fight: The primary purpose of counting is to protect the athlete. Even if the athlete desires to continue the contest before the count of eight is reached, the referee must count until "Yeo-dul (eight)" before resuming the contest. Counting to "Yeo-dul" is compulsory and cannot be altered by the referee.

**Count from one to ten: Ha-nah, Duhl, Seht, Neht, Da-seot, Yeo-seot, Il-gop, Yeo-dul, A-hop, Yeol.*

(Interpretation #19.1.3)

The referee shall then determine if the athlete has recovered and, if so, restart the contest by the declaration of "Kye-sok":

The referee must ascertain the ability of the athlete to continue while he/she counts until eight.

Final confirmation of the athlete's condition after the count of eight is only procedural and the referee must not needlessly pass time before resuming the contest.

(Interpretation #19.1.4)

When an athlete who has been knocked down cannot express the will to resume by the count of "Yeo-dul", the referee shall announce the opponent winner by RSC after counting to "Yeol":

The athlete expresses the will to continue the contest by gesturing several times in a fighting position with the clenched fists. If the athlete cannot display this gesture by the count of "Yeo-dul", the referee must declare the opponent winner after first counting "A-hop" and "Yeol". Expressing the will to continue after the count of "Yeo-dul" cannot be considered valid. Even if the athlete expresses the will to resume by the count of "Yeo-dul", the referee can continue counting and may

declare the contest over if he/she determines the athlete is incapable of resuming the contest.

(Interpretation #19.1.4)

When an athlete is downed by a powerful scoring blow and whose condition appears serious, the referee can suspend the count and call for first aid or do so in conjunction with the count.

(Guideline for officiating)

i. The referee must not spend additional time confirming the athlete's recovery after counting to "Yeo-dul" as a result of failing to observe that condition during the administration of the count.

ii. When the athlete clearly recovers before the count of "Yeo-dul" and expresses the will to resume and the referee can clearly discern the athlete's condition yet resumption is hampered by the requirement of medical treatment, the referee must first resume the contest with the declaration of "Kye-sok" and immediately after declare "Kal-yeo" and "Kye-shi" and then follow the procedures of Article 21.

- 21.1.2 The referee shall allow the athlete one minute to receive first aid by the commission doctor; the referee may allow team doctor to treat first aid if the commission doctor is not available or if it is deemed necessary;
- 21.1.2.1 The commissioned doctor may request more time (up to two minutes), if necessary.
- 21.1.2.2 If there is a no commissioned doctor, team doctor or medical chairman available, any doctor (or medical associate) near competition mat can be requested to provide the athlete with first aid.

- 21.1.6 If the referee determines an athlete's pain is not severe the referee shall declare “Kal-yeo” and give a command to resume the contest with the call “stand-up”. If the athlete refuses to continue the contest after the referee gives the command “stand up” three times, the referee shall declare the contest ‘Referee Stops Contest’ (RSC).
- 21.1.7 If the referee determines an athlete's pain to be severe the referee shall allow the athlete to receive a first aid treatment for one minute after “Kye-shi”. The referee may allow the athlete to receive first aid treatment even after giving the command “stand-up”;
- 21.1.8 Stopping the contest due to injury: An athlete who continues the contest with pain and shows pain in the same manner as the first time or more severe, the referee shall consult with WT commissioned doctor assigned for the competition who may advise the referee to stop the contest and declare the injured the loser by

withdrawal (WDR).

- 21.2 In a situation which warrants suspending the contest for reasons other than an injury, the referee shall declare “Shi-gan (time)” and resume the contest by declaring “Kye-sok (continue)”.

(Interpretation #21.1)

When the referee determines that the competition cannot be continued due to injury or any other emergency situation, he/she may take the following measures:

- i. If the situation is critical such as an athlete losing consciousness or suffering from a severe injury and time is crucial, first aid must be immediately directed first and the contest must be closed. In this case, the result of the contest will be decided as follows:
 - The athlete causing the injury shall be declared the loser if the outcome was the result of a prohibited act to be penalized by “Gam-jeom”.
 - The incapacitated opponent shall be declared the loser if the outcome was the result of a legal action or accidental, unavoidable contact.
 - If the outcome was unrelated to the contest contents, the winner shall be decided by the contest score before suspension of the contest. If the suspension occurs before the end of the first round, the contest shall be invalidated.
- ii. If first aid treatment is need for an injury, the athlete can receive necessary treatment within one minute after the declaration of “Kye-shi”.
 - a) Order to resume the contest: It is the decision of the center referee, after consultation with the Commission Doctor, whether or not it is possible for the athlete to resume the contest. The referee can anytime order the athlete to resume the contest within one minute. The referee can declare any athlete who does not follow the order to resume the contest the loser of the contest by withdrawal (WDR).
 - b) While the athlete is receiving medical treatment or is in the process of recovering, 40 seconds after the declaration of “Kye-shi”, the referee begins to loudly announce the passage of time in five second intervals. When the athlete cannot return to the Contestant’s Mark by the end of the one-minute period, the contest results must be declared.
 - c) After the declaration of “Kye-shi”, the one-minute time interval must be counted from the moment the commissioned doctor enters the mat or after waiting for the commissioned doctor for up to ten (10) seconds, if not readily available at the mat. However, when the doctor’s treatment is required but the doctor is absent or additional treatment is necessary, the one-minute time limit can be suspended by

the judgment of the referee.

d) If resumption of the contest is impossible after one minute, the decision of the contest will be determined according to sub-article “i” of this article.

iii. If both athletes become incapacitated and are unable to resume the contest after one minute or urgent conditions arise, the contest result is decided according to the following criteria:

- If the outcome is the result of a prohibited act to be penalized by “Gam-jeom” by one athlete that person shall be the loser by disqualification (DSQ).
- If the outcome was not related to any prohibited act to be penalized by “Gam-jeom”, the result of the contest shall be determined by the contest score at the time of suspension of the contest. However, if the suspension occurs before the end of the match, the contest shall be invalidated and the Technical Delegate will determine an appropriate time to re-contest the contest. The athlete who cannot resume the contest shall be deemed to have withdrawn (WDR) from the contest.
- If the outcome is the result of prohibited acts to be penalized by “Gam-jeom” by both athletes, then both athletes shall lose by disqualification (DSQ).

(Interpretation #21.2)

The situation which warrants suspending the contest beyond the above-prescribed procedures shall be treated as follows.
